

# DIRECTIONS FOR USE

## English

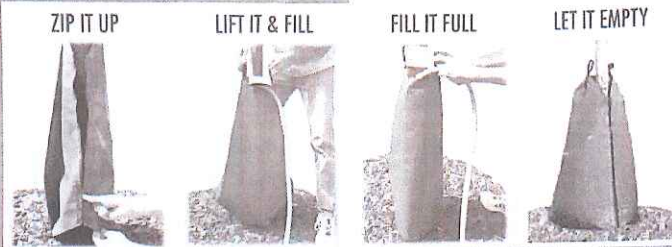

- Wrap both sides of Treegator® bag around tree trunk:
  - Single Bag fits 1 to 3 inch diameter trunk (caliper)
  - Double Bag Setup\* fits 4 to 8 inch diameter trunk (caliper)
- Zip up zipper, insert hose in opening under tag & begin filling.
  - \* Double Bag Setup is 2 Single Bags zipped together back-to-back
- Release points may squirt initially, but will slow to drip as bag is filled.
- Fill bag to approximately 1/4 capacity.
- After bag is 1/4 full, gently lift up on black straps at top of bag to expand bottom.
- Add pre-mixed water-soluble fertilizer, if desired. Resume filling to max capacity.
- Bag will be empty in approximately 5 to 9 hours.
- Fill schedule for most new tree plantings is once per week - see below for details.

## Español

- Envolver el tallo del árbol con la bolsa.
- Luego juntar ambas puntas del zipper y cerrar.
- Levantar la etiqueta y abrir en línea de los horificios.
- Introducir la manguera y colocar un 1/4 de agua. (Use agua limpia)
- Levantar cuidadosamente de los agarraderos para asegurarse que la bolsa quede en buena posición y proceder a llenarla totalmente.
- Pasado un lapso de 5 - 9 horas la bolsa volverá a llenarse.

## FILLING TIPS

### Easy To Use...

## PRODUCT SPECS

### Unique Design

- Single Bag:**
- Fits 1" to 3" diameter trunk
- Double Bag\*:**
- Fits 4" to 8" diameter trunk (\*2 bags zipped back-to-back)
- Waters for:**
- 5 to 9 Hours (approximate)
- Dimensions:**
- 18" wide (filled)
  - 26" tall (filled)

Treegator® Original shown flat and unfilled - Drawing shown is not to scale.

## Watering Schedule

Refer to the charts below for a recommended watering schedule, being sure to note these qualifications:

- Water capacity (gallons) for a Treegator® Original bag is dependent upon bag setup and tree trunk diameter (caliper).
- Recommendations are based on a commonly referenced guideline of 10 gallons of water per 1" of tree trunk diameter (caliper)

Treegator® Original Bag Setup	Trunk Diameter (caliper)	Approx. Water Capacity (per single bag)	Recommended Fills per Week
	1 to 2 inch (3 to 5 cm)	15 gallons (56.78 liters)	1 Fill per Week
	2 to 3 inch (5 to 8 cm)	14.75 to 14.25 gallons (55.84 to 53.94 liters)	2 Fills per Week
	0.00 inch (stand-alone†)	25 gallons (94.63 liters)	Varies based on application
	4 to 5 inch (10 to 13 cm)	23.50 gallons (89.95 liters)	1 Fill per Week
	5 to 8 inch (13 to 20 cm)	22.75 to 21.5 gallons (86.11 to 81.38 liters)	2 Fills per Week

NOTE: Proper watering frequency can vary depending on several factors (tree variety, soil type, weather, etc.) These recommendations will NOT guarantee that your tree is being watered properly. Use it only as a guide. Consult a local gardener or tree care professional for info on proper watering practices for your tree type and region.

\*A Double Bag setup is two (2) Treegator® Original zipped together back-to-back. †When watering established trees with fully developed root systems, a Double Bag setup can be used as stand alone watering solution (not wrapped around a trunk).

## 5-Year Warranty

Every Treegator® Original comes with a limited manufacturer warranty against defects in materials and/or workmanship for up to 5 years from the original date of purchase.

Note: Do NOT return defective items to store. For product warranty info, visit: [www.TREEGATOR.com/help](http://www.TREEGATOR.com/help)

## Precautions

- Fill this product with clean water only!
- If necessary, filter dirty water through cotton cloth on hose end.
- Do not suspend or hang bag from black straps.
- Do not unzip or transport bag when full.
- Do not tear / rip fill opening.
- If using water soluble fertilizers, premix in separate container before adding to bag. (not necessary if using dissolvable fertilizer packets.)
- Treegator® is not a permanent installation. Use as needed for 1 to 2 growing seasons after planting. Remove and store when not in use.
- Do not zip together more than 2 (two) Treegator® Original bags.
- This product is not a toy. Keep away from children.
- Failure to follow these precautions will void product warranty.
